Emily

I don't know if anyone mentioned this to you but I seem to have a problem closing a client from the ATA database. There is a client that has moved to another state-she is still pregnant-so I was getting ready to close her but the database will not let me because I don't have an Birthing Outcome and/or EPDS done on her. I will never get these forms done because she has left before she has the baby so therefore I can't close her from the system. What do you want me to do regarding this?

Thanks

**Connie L Pendley, CPC-A****Whole Kids Outreach**
